SNAP-STICK Deodorizes & Conditions Water in Toilet Bowls

DESCRIPTION

SNAP-STICK helps keep toilet bowls free of unpleasant odours with each flush of water. The technology used in **SNAP-STICK** makes obsolete paradichlorobenzene hangers, drip systems and other masking attempts which work continuously; even when toilets are not used. The problem of unpleasant odours in toilet bowls comes from waste odour, soil accumulation and hard water scale build-up which becomes a breeding ground for bacteria. Cantol bowl cleaners are the best products to clean the sides of the bowl and under the rim on a regular maintenance program. **SNAP-STICK** helps to control odours between periodic cleaning. It does this, when needed, with each flush of water. With each flush of water, **SNAP-STICK** softens or conditions incoming bowl water to help reduce hard water deposits and releases a pleasant fragrance to neutralize foul odours. **SNAP-STICK** contains some detergency to assist in the reduction of soil build-up and is fortified with enzymes to digest organic materials and keep drains running freely. A colour indicator is formulated into each **SNAP-STICK**. The light blue colour of the bowl water indicates that **SNAP-STICK** is working to deodorize and condition the water. **SNAP-STICK** provides at least 30 days of automatic protection under normal conditions. **SNAP-STICK** comes in a self-contained, flexible, disposable holder which is designed to snap on to the rim of all toilet bowls. **SNAP-STICK**'s compact holder fits neatly under the rim. The reservoir design completely eliminates unsightly blue chips. The water deflecting panels of the holder ensures uniform water flow over **SNAP-STICK** with each flush. The holder is easily removed and disposed of when completely dissolved. Use **SNAP-STICK** as part of your rest room maintenance program.

FEATURES

- Destroys Unpleasant Odours
- Conditions Incoming Water
- Maintains Between Periodic Cleaning
- Colour Indicator
- Water Activated
- Disposable Holder
- Companion to GENTS
- Easily Removed
- Water Deflecting Panels
- 30 Day Protection Under Normal Usage
- Air Freshener
- Reduces Scale Build Up
- Reservoir Design
- Eliminates Blue chips
- Fortified With Enzymes
- Digests Organic Material
- Fits All Toilet Bowls
- Automatic

DIRECTIONS

- For best results, clean toilets thoroughly with Cantol bowl cleaner.
- Place **SNAP-STICK** so that it clips to the rim of the toilet bowl.
- **SNAP-STICK** fits snugly against the inside of the bowl to ensure sufficient water contact with each flush.
- Flush toilet to intensify fragrance, condition the water and activate the color indicator.
- When dissolved, discard entire unit and replace with a new **SNAP-STICK**.

NOTE: Store in cool dry place.

TECHNICAL DATA

State: Solid

Flash Point: None

Life Cycle: Minimum of 30 days under normal usage.

PRECAUTION

CAUTION: Do not take internally. If swallowed, drink large quantities of water. Call a physician. Prolonged contact with skin or eyes may cause mild irritation. In case of contact, flush eyes with plenty of water for at least 15 minutes. Seek medical attention. For skin, rinse off with water. For industrial and institutional use only. **KEEP OUT OF THE REACH OF CHILDREN.**
